SUMMARY

- I plan to secure a career change from civil engineer to the web developer. To do this, I attended the full-time software engineering immersive course at General Assembly (Malaysia). As a result, I earned the completion certificate from General Assembly (Malaysia) on 17th November 2022.
- My career goal is to be a full-time web developer/full-stack developer. coding To achieve this, I plan to work on writing & creating projects to help build up my portfolio, attend a JavaScript course, and practice exercises to improve my coding skills.
- My career goal is to be a full-time web developer/full-stack developer in coding. To achieve this, I plan to create more projects to sharpen my coding skills. Besides, I am also attending the JavaScript course to improve my JavaScript skills.

EDUCATION

Universiti Selangor (UNISEL), Malaysia

Bachelor of Engineering (Hons) Civil, 2014

CGPA: 3.08 (2nd Upper)

CERTIFICATION

General Assembly

Software Engineering Immersive, 2022

- The final project is creating a personal portfolio site by using HTML, CSS, and JavaScript.
- The portfolio site contains a resume, biodata, GitHub profile, and LinkedIn account.
- The portfolio site also contains a list of my current projects with lives sites.
- The portfolio site also must be functional for all screen sizes.
- The portfolio site has been deployed to Netlify. Click to view: <https://silly-sable-979e61.netlify.app/>
